Body Camera

Specification

Chipset	GIGABYTE
Product Size	1500mm*500mm*380mm
Structure	upright
Screen	19 mm infrared touch screen (1280*1024)
Processor	I3 4160 dual core 3.6Hz
System HD	60G SSD
CPU	Intel core
Platform system	Win7
Software encryption	JDProtect HASP PRO (Sublock)
Storage HD	2T HD,maximum support 44T
Memory	4G DDR3 1333
HD level	Enterprise level HDD
HD storage	Standard 2T, maximum support 44T
Accessible quantity	16/20 machines can be uploaded simultaneously
plug and take out	Manual drag insertion
Disk array	Optional accessories, 4 HD mustmatch an array card
Sound	built in speakers
RAIDK function	Optional
Power	500W
Network adapter	single Gigabit Ethernet
USB	An external 3.0 USB
Interface voltage / current	12V/1A
Access voltage	220V
Working temperature	–20~60 degrees Celsius
Operating system	xp/win7/win8
Packing size	1620mm*680mm*600mm
