## Siyata-Mobile CP250

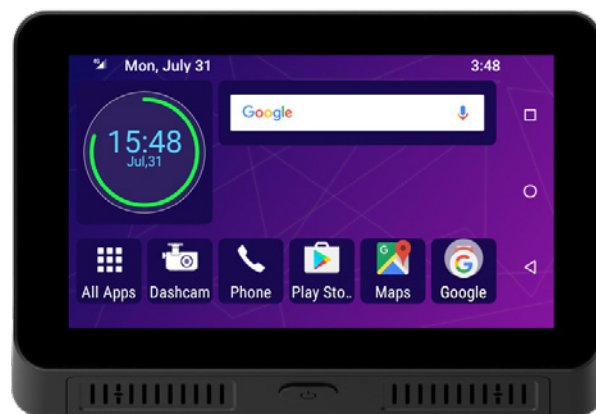

CODE:  
**PK-SM-CP250**

Next Generation Fleet Communication  
Vehicle Communicator

### Overview

The Siyata CP250 is the first LTE all-in-one fleet communications device for cellular voice calls, push to talk over cellular, navigation, data applications, built in camera, DVR and more.

This device was designed to be installed on the dash or mounted on a windshield, specifically for lighter commercial vehicles such as taxis, vans and delivery trucks. The tablet based design makes installation a breeze and ensures safer communication for professional drivers.

### Features
